4	Connect the MT-606 Com1 RS232 and PC RS232 by the RS232 ActiveSync cable.	RS232 ActiveSync cable

	ActiveSync cable	
	PC COM1	CN5 COM1 [RS232]
	9P D-SUB Female	9P D-SUB Female
	1,4,6 short	
	2 RD	3 TD
	3 TD	2 RD
	5 GND	5 GND
	7 RTS	8 CTS
	8 CTS	7 RTS
5	Run MT606	
	\Windows\repllog.exe	 ,
		repilog
6	Follow the onscreen instructions	New Partnership
	to establish a partnership and	Set IIn a Partnership
	synchronize your MT606 with	
	your desktop computer.	Before you can synchronize information between your mobile device and this computer, you must set up a
		partnership between them.
		Would you like to set up a partnership?
		Set up a partnership so that I can synchronize
		I don't want to synchronize information. Set up my device as a guest so that I can copy or move
		information between my device and this computer.
7	Now you can synchronize the	😣 Microsoft ActiveSync
	information between the MT606	File <u>View Iools Help</u>
	and host computer with	Sync Stop Detsils Explore Options
	ActiveSync.	Guest
		Connected

Use Ethernet connect to PC ActiveSync.

Step		
1	Before you begin Set up a partnership, between your device and desktop computer using RS232 connection.	New Partnership Set Up a Partnership Before you can synchronize information between your mobile device and this computer, you must set up a partnership between them. Would you like to set up a partnership? Image: Set up a partnership so that I can synchronize information between my device and this computer. No I don't want to synchronize information. Set up my device as a guest so that I can copy or move information between my device and this computer.
2	MT606CV2 use CECP to save the registry. (The MT606CV2 will remember the partnership after the power reset.) Disconnect the RS232 cable	System settings OK X LCD Settings MAC address Save System ve Save registry
3	 Enable a network (Ethernet) connection in ActiveSync. 1 On the File menu, click Connection Settings. 2 Select Allow network (Ethernet) and Remote Access Service (RAS) server connection with this desktop computer. 	Connection Settings Image: Click Get Connected to connect your mobile device to this computer. Status: Waiting for device to connect Get Connected Image: Allow gerial cable or infrared connection to this COM port: Image: COM2 Image: COM2 Image: COM2 Status: COM port is available Image: Allow gerial cable or infrared connection to this COM port: Image: COM2 Image: Status: COM port is available Image: Status: Image: Status: USB is available Image: Status: Image: Status: USB is available Image: Status: Image: Status: Network (Ethernet) and Remote Access Service (RAS) server connection with this desktop computer.
